**SAVE 20%**  
over leading brands

**Resp-Ease** is a range of sterile hypertonic sodium chloride solutions for inhalation using a pneumatic or ultrasonic nebuliser.

**Resp-Ease increases the mobilisation of secretions in the lower respiratory tract by osmotic effects whilst preventing drying of bronchial mucous.**

Each box of Resp-Ease contains 10 strips of 6 blow-moulded hermetically sealed plastic vials, each containing 4ml of solution.

- Now available in **3%**, **6%** & **7%** concentrations
- On Drug Tariff
- Preservative free
- Bioequivalent to leading brands
- 20% cost saving over leading brands<sup>1</sup>

**See the savings for yourself...**
